## LETTER OF TRANSMITTAL.

---

U. S. DEPARTMENT OF AGRICULTURE,  
OFFICE OF EXPERIMENT STATIONS,  
*Washington, D. C., November 11, 1908.*

SIR: I have the honor to transmit herewith a manuscript containing the revised organization lists of agricultural colleges and experiment stations in the United States, which has been compiled under my direction by Miss Mary A. Agnew of this Office.

It has been customary heretofore to include in these lists the names of all officers and teachers in the agricultural and mechanical colleges, but in this revision an effort has been made to confine the lists to the names of administrative officers and instructors whose work brings them in contact with students in agricultural and home economics courses, omitting those who deal exclusively with mechanic arts or engineering students. But while working to this plan, it has been found impracticable in some cases, owing to the complex organization of the institutions concerned, to make the lists entirely consistent.

I recommend the publication of this manuscript as Bulletin 206, of this Office.

Respectfully,

A. C. TRUE,  
*Director.*

HON. JAMES WILSON,  
*Secretary of Agriculture.*

## MINNESOTA.

College of Agriculture of the University of Minnesota, *St. Anthony Park, St. Paul.*

## GOVERNING BOARD.

Board of Regents: John Lind (*Pres.*), Minneapolis; Cyrus Northrop (*ex officio*), Minneapolis; Gov. J. A. Johnson (*ex officio*), St. Paul; J. W. Olsen (*State Supt. of Public Instr., ex officio*), Albert Lea; Thomas Wilson, St. Paul; A. E. Rice, Willmar; B. F. Nelson, Minneapolis; Pierce Butler, St. Paul; C. A. Smith, Minneapolis; S. M. Owen, Minneapolis; W. J. Mayo, Rochester; H. B. Hovland, Duluth; C. D. Decker (*Sec.*), Austin.

## COURSES OF STUDY.

The college courses require four years for completion and lead to the degrees of B. S. in Agr., B. S. in For., and B. S. in Home Econ. There is also a secondary school of agriculture, with a course requiring three years of six months each for completion, a two-year normal course in home economics, a six weeks' summer school of forestry, a special lecture course continuing for a term of eight weeks for farmers of mature years, a dairy course of four weeks, and a four weeks' school of traction engineering. To secure a dairy certificate the student must have one season's actual practice in a creamery or cheese factory, one of which must follow his work at the dairy school. A summer school for teachers gives instruction in agricultural subjects.

## COURSES OF STUDY.

The long course requires four years, leading to the degree of B. S., the middle course in agriculture covers two years, and the short course covers two terms of fourteen weeks each. A certificate is granted to those completing these courses. The winter dairy course lasts twelve weeks and requires for admission one season's previous training in a creamery or cheese factory. A summer dairy course is offered to a limited number of students, who will be admitted without previous factory training and may remain the whole season. To secure a dairy certificate the student must have two seasons' actual practice in a factory, one of which must follow his work at the dairy school. A two-week farmers' course, limited strictly to persons who are at least 25 years of age, and a special training course for teachers, are also offered.
